Test Protocol: Usability - SM 2014-R Installation, Silencing		

1. Introduction and Purpose

1.1. The purpose of this usability test protocol is to evaluate ease of silencing and of installation and removal of the SM2014-R sensor on the medication when aided by packaging and labeling.

2. Scope:

- 2.1. The scope of this test plan includes testing ease of silencing and of installation and removal of the SM2014-R sensor on the medication when aided by packaging and labeling.
- 2.2. More than one usability test may be run in a single usability session; see TST_Usability_ ParticipantInfoSheet for introcution, purpose, scope, definitions, materials, and procedure information applying to all usability tests.

3. Definitions

3.1. **SM 2014-R** - Sensor Model 2014-R (Propeller Sensor for Respimat)

4. Materials and Equipment:

- 4.1. The following materials and equipment are required for executing the test plan.
 - 4.1.1. **Data Sets:** N/A
 - 4.1.2. Equipment:
 - 4.1.2.1. <u>Hardware</u>
 - 4.1.2.1.1. © Sensor Model 2014-R (NOT in silent mode)
 - 4.1.2.2. Paperwork
 - 4.1.2.2.1. © User guide
 - **4.1.3. Machine Configuration:** As listed on Page 1.
 - 4.1.4. Automated Test Scripts: N/A
 - 4.1.5. Standard Data Files: N/A

5. Procedure:

5.1. Introduction to usability testing

5.1.1. See TST_Usability_ParticipantInfoSheet

5.2. **Task**

5.2.1. Introduction to Respimat

- 5.2.1.1. \square Many people are familiar with this style of inhaler <point to MDI>.
- 5.2.1.2. Pharma companies are trying to come up with better ways to deliver the medication inside the inhaler to your lungs.
 - 5.2.1.2.1. One of the problems with this style of inhaler is that it releases medication very fast, and the medication ends up on the back of the person's throat instead of in their lungs.
 - 5.2.1.2.2. This new style of inhaler releases the medication more slowly so more of it can get to the lungs.
- - 5.2.1.3.1. twisting, <twist Respirat 180°> and

5.2.2. Stage Setting

Test Protocol: Usability - SM 2014-R Installation, Silencing		

5.3. **Follow up**

- 5.3.1. Self-identified trouble areas
 - 5.3.1.1. <u>Operational Difficulties:</u> Was there anything that was difficult or confusing?

- 5.3.1.2. <u>Use Errors:</u> Were there any points where you did something and later thought "oh, maybe that wasn't right?"
- 5.3.1.3. <u>Close calls:</u> Did you have any "close calls" where you almost did something and caught yourself?

5.3.2. Participant mindset during trouble areas

5.3.2.1. Can you walk us through your mindset when ...

5.3.2.1.1. (Individually discuss each use error, close call, and operational difficulty not already discussed. Record notes above.)

5.4. Interview questions

5.4.1. See TST_Usability_ParticipantInfoSheet
